SLFF Club Meeting - FALL SOCIAL!

*The Santa Lucia Fly Fishers fly fishing club was established in 1975 to give local area fly fishers of San Luis Obispo, Paso Robles, Santa Maria and northern Santa Barbara, CA, of all skill levels, participation in a club to learn, share and experience the challenges of our sport in salt water surf, and fresh water rivers and lakes.*

## President's Message

*By Eric Tinglof*

**The deadline to buy tickets for the Fall Social and the Special Summer Raffle is August 31<sup>st</sup>!**

This will be a great opportunity for new members to meet other Club members at a relaxed, casual event. We can't wait to see everyone there. And, by buying a Special Summer raffle ticket for only \$40, you help support your Club and get a good chance to win your choice of a \$800 Dave Scadden boat or a \$100 Redding Fly Shop gift certificate.

Glynis and I ventured back out to Northern New Mexico again to join several other Club members on the annual San Juan River outing. What a good time we all had on this adventure, a few visiting the Soaring Eagle Lodge for the very first time. What a difference a trip makes when everything is all arranged for you: transportation, accommodations right next to the river (I always think I will catch a fish in front of the Lodge, but I never do...) and splendid meals each day. If you have the interest, please make a point of joining the Club on the Juan next year.

My strongest connections to this group have come from picking Club outings throughout the year that sound fun or challenging. As we continue to advertise these outings in the newsletter, take the plunge. Join us on one of these trips. You will not regret this step as we have many, very interesting and fun people to meet and to get to know better.

We now have 163 members, many joining this year. We have a fantastic monthly meeting location at the Octagon Barn Complex, typically with a speaker presenting in person. We certainly don't have 163 members showing up each month. Please consider joining us in October as this is an easy way to mingle with fly fishing enthusiasts.

I received my first issue of the newly retooled California Fly Fisher magazine. What a great read and what a valuable resource to discover the wild places of our State.

Welcome to the SLFF Club!  
New Members

**Kevin Reeder  
Edward Arrigoni  
Kyle Mitchell  
Marcia Osterkamp**

# New Member Profile

Kyle Mitchell

I'm 33 years old, married, and have two dogs. I love camping and fishing, both salt and freshwater.

Over the past 2 years, I've gotten into Flyfishing. I've read numerous books: Tom Rosenbauer's Orvis books, Kirk Deeters Little Books, entomology books, and high Sierra fly fishing books by Loek and Cutter.

I practice fly casting in my pool in my backyard and at the park up the street from me. I'm looking forward to meeting people, locally, that share the same interest as me.

## SLFF Newsletter Editor - Open Position 2025

The club is looking for an enthusiastic member to become the next Newsletter Editor! The position will be for the next calendar year, 2025.

Are you interested in contributing to the club and have some (even a little) computer experience?

The Newsletter Editor is responsible for:

- Gathering club news, articles, and photos to publish each month. These are sent to the editor via email from other club members and the Board of Directors. No need to create them yourself!
- Read over the articles and edit for content and grammatical errors.
- Place articles in the newsletter template and adjust for font, text size, margins, etc.
- Send it to the Board President for final approval. The President will then publish the final newsletter via Mailchimp.

### ADDITIONAL INFO:

The newsletter is already set up on a template that will be passed along to the next editor. All that's needed is a word document program (Word or Pages) and internet access.

The current newsletter editor will be available for whoever takes the position with consulting, side-by-side tutoring, etc., for as long as necessary.

Time commitment - approximately 2-3 hours per month.

Contact Eric Tinglof if you're interested. [etinglof19@gmail.com](mailto:etinglof19@gmail.com)

# Soaring Eagle Lodge/San Juan River Fishing Outing

By Jim Snodgrass

On August 4, 2024, the Santa Lucia Fly Fishers pulled into the Soaring Eagle Lodge compound and saw the beautiful San Juan River flowing by, drift boats waiting for the next day's fishers, a large dining room specifically for meals and talk of the day's fishing, comfortable cabins sitting along the curves of the river, and a clubhouse filled with games for warm summer evenings. All cares and concerns of the everyday world quickly melted away...the ten SLFF fishers and guests were there for serious fishing, relaxation, and fun.

Alan & Grandson John Henderson, Jim & Son Patrick Snodgrass, Ron Stalter, Ed Cummings, Glynis & Eric Tinglof, Martha & Todd Tose.

Each day for four days, the fishers cast their lines for Rainbow and German Brown Trout, while top-quality guides positioned the drift boats into "secret spots" where the big fish hide. The guides coached the fishers on the fine points of nymphing and dry-fly casting to entice the fish to taste the fly. Ron Stalter learned just how big a bite those fish will take, when he caught his first fish of the trip. The weather on the river was in the high 80's to low 90's and clear skies prevailed until the final morning when a thunderstorm rolled in. Happily, the storm held off until the final minutes of our stay at the Soaring Eagle Lodge.

Each evening the ten SLFF gathered in the dining room for huge gourmet meals of pork loin, venison, shrimp, or red fish, expertly prepared and served. At one of those meals, Todd and Martha Tose kindly shared a bottle of fine wine to celebrate their 20<sup>th</sup> wedding anniversary. Talk during these evenings focused mainly on the 14" to 18" fish caught, the ones (over 24") that got away, the guides' special rod set-up and which of the guides' hand-tied flies worked best.

On Thursday, August 8<sup>th</sup> the SLFF members invited the other Soaring Eagle Lodge guests to attend the monthly Santa Lucia Fly Fishers meeting, on Zoom, of course. Several guests were introduced to our club and enjoyed Dan Johnson's Trout Unlimited update at the recreation center. Isn't technology grand...fish all day and attend a club meeting in the evening...hundreds of miles apart.

Club members always enjoy the Soaring Eagle Lodge and fishing the San Juan River, so reservations have been made for seven cabins (14 fishers) for July 7<sup>th</sup> to the 12<sup>th</sup> of 2025. This is definitely a "Bucket List" outing that the Santa Lucia Fly Fishers should consider.

## HALIBUT OUTINGS REPORT

By: Bernard Pieters

Fishing the bay for halibut has been slow for the last two years due to restoration work done on the breakwater wall north of San Luis Harbor. This has scared most of the fish away. Now that the work is done and the noise is gone, the big question is, are the fish returning?

Seven people attended this local fishing event. Some of them have been coming to this outing and have been fishing this area for many years, like Mark Shelton, Roger Grizzle, and Jim Small. For Chris Rhoades, this was his second outing, catching a halibut in the last years. Gary Brennen and Kevin Shaw were giving this saltwater fishing a first try.

We hit the water at 7:30 a.m. after giving help and fishing pointers to the new anglers on how to fish for this species. The weather was mild with an overcast sky, no wind, and a pleasant 60 F air temperature. The fishing was very slow for the first hour with no bending rods to see around us. After this first period, some baitfish trickled in, and the fish became more active.

The final outcome was: one halibut caught (23 in.), one slip of the hook, and one (possibly a big one) broke the leader. There were also a few strikes.

Your club has organized the halibut outings for over 25 years. We encourage you to fish as often as possible and become more experienced. Believe it or not, we only have a few good halibut fly fishers in the club. One thing is for sure about catching this fish, you have to try more than a few times to fish for it to become more productive!

See you at the bay, Bernard

## INTRODUCING YOUR SANTA LUCIA FLY FISHERS CLUB MENTORS

As a member do you have a question about our club &/or about our sport and don't know who to contact?

Below is a list of members who may be able to provide you with the answer or information you need. And generally, act as a mentor to help you learn and find the right resources. If the member you contact can't help, then they will point you in the right direction. This might be another club member, info that's on our website, website links, etc.

Mentors have been chosen because of their familiarity with the club and or have a lot of years invested in learning and experiencing our sport.

Members should understand none of our mentors knows everything but have been around long enough to know how they can help you.

Mentor info includes name, email, location (if needed) and if a subject matter expert a notation as to that expertise. Club means they are familiar with club workings if that is where you need help.

## VIDEO OF INTEREST

By Kevin Rayner

Click this Link

Ever get sick of tangled or lose dropper fly? I took a knot from bass fishing with conventional tackle. It's called a "drop shot rig". This knot holds the upper fly to the leader/tippet and leaves a long tag end for the lower fly. The upper fly is perpendicular to the leader/tippet. Try it! You'll like it.

<https://www.youtube.com/watch?v=GwszY5ns8jw>

## 2025 Meeting Programs

By: Lew Leichter & Mark Shelton

Mark and I are starting to plan our programs for next year. The goal continues to be in-person speakers on topics of local interest to members. Like most other things, in-person speakers have become more expensive.

As a way to offset this, Mark and I remember when we would have a meeting or two each year devoted to club member presentations. These were very popular in the past. It doesn't need to be fancy. Sharing a neat fishing experience with, hopefully, info about the destination, in addition to some photos. It also doesn't need to be long, as we can group several in an evening. Power points, slide shows, and show and tell all are welcome.

If you have any questions or want to sign up please contact Mark at [mshelton@calpoly.edu](mailto:mshelton@calpoly.edu) or me, Lew, at [lsleichter@hotmail.com](mailto:lsleichter@hotmail.com)

**2024 Speaker Program Schedule**  
By Lew Leichter

We're increasing the number of in person speakers and are emphasizing programs on California fishing opportunities, most of which you can reach in a one day drive.

DATE	IP (IN PERSON) Z (ZOOM)	NAME	PROGRAM

## DAVE SCADDEN'S RENEGADE SERIES DETONATOR LOW PRO X

Donated by Dave Scadden

Dave Scadden unleashes over 30 years of evolution and progression in the form and function of his radical Detonator Lo Pro frameless pontoon craft. Simply put the Detonator is a Cardiac Canyon, Skykomish Sunrise, Renegade and Fuzion all rolled in to one wild new package. Incorporating Dave's exclusive multi laminate rigid floor system the new Low Pro is super low profile for superior wind resistance. It also offers unmatched stability to stand and sight fish with confidence. The rigid floor also allows for the use of a comfortable 2" cushion seatsystem that even allows for a swivel base plate. Weighing in under 30 lbs. and equipped with his exclusive integrated motor mount, IQ pocket system, new HD oar lock system, 2 pc 6061 T6 aluminum oars, breakaway footrest bar plus Dave's exclusive Ultra Trac keel system it is the most anticipated and sought-after boat of the century. Pump, 2 side pockets, seat, aluminum oars and all components included.

- Length: 9'
- Width: 53"
- Diameter: 12"
- Weight: 26 lbs.
- Weight Capacity: 1000 lbs.
- Frame: Frameless
- Frame Material: Frameless
- Pontoons: Bladderless
- Oars: Alcoa 6061 T65
- Oar Locks: Integrated rack & pinion
- Seat: Choice of padded hard plastic (+\$79 & + 16 lbs.) or portable EVA seat
- Integrated motor mount, integrated keel system and rigid inflatable floor
- Breakaway footrest bar system
- Warranty: Lifetime

**Contact Lew Leichter at 805 934-2476 to facilitate placing your order.**

# DAVE SCADDEN'S Predator LO PRO X Donated by Dave Scadden

Dave's Outlaw Predator Lo Pro X Ultra Lite proves the theory that less is more. Over 10 lbs less to be exact. Yes, that's right, 10 lbs less than the lightest pontoon boat made. The new Predator tips the scales under 20 pounds. The new Predator incorporates our exclusive new rigid inflated floor system which gives you the ability to stand and sight fish. It is fully equipped with Dave's rack and pinion oar system, breakaway footrest bar, seat, and gear bags. Add a lifetime warranty, the new Predator is ready to rock!

- Length: 8'
- Width: 48"
- Diameter: 14"
- Weight: 16 lbs.
- Weight Capacity: 700 lbs.
- Frame: Frameless
- Frame Material: Frameless
- Pontoons: Bladderless
- Oars: Alcoa 6061 T65
- Oar Locks: Rack & Pinion
- Seat: Portable EVA or Cushioned Plastic (+\$79 + 16 lbs)
- Rigid inflatable floor
- Breakaway footrest bar system
- Warranty: Lifetime

**Contact Lew Leichter at 805 934-2476 to facilitate placing your order**

November/December TBD	O'Neil Forebay Striper Fishing	<a href="mailto:mshelton@calpoly.edu">mshelton@calpoly.edu</a>	Mark Shelton

Comments: Dates and locations (TBD) for surf fishing will be determined by time, tides, and weather conditions. Notifications will be sent out by e-blast.

The dates regarding the specific locations will be determined by the response of members wishing to participate in the outings. We will update you by email and notices in the club newsletter.

## Lake Almanor October 5-12

Four SLFF members will be in the Hamilton Branch from 10/5 to 10/12. If you're going to be up there then let me know and we'll try to get together.

Lew Leichter

[lsleichter@hotmail.com](mailto:lsleichter@hotmail.com)

# TENKARA CLINIC

October Date TBD

By Ken Baldwin

Members,

I am planning on arranging an introductory clinic on the Japanese technique of Tenkara fly-fishing in October, the dates are still to be determined. For those unfamiliar with Tenkara fly-fishing, it is an ancient form of fixed-line fishing using a rod measuring 10-13 feet to which is affixed to a non-tapered line of 10-15 feet and 3-4 feet of tippet at the end. There is no reel and the rod weighs less than 4 ounces. The simplicity of Tenkara fishing makes it ideal for fishing streams and small rivers and is perfect for camping and backpacking trips as the contemporary rod collapses to 18-20 inches.

I have organized the clinic for the past three years in conjunction with fly-fishing guide Pat Jaeger of the Eastern Sierra Guide Service located in Mammoth Lakes. In the past, we have held the clinic at the Lower Owens River just outside of Bishop, though the final locale will depend on the prevailing water conditions. The clinic involves two half-day sessions of stream-side instructions with Tenkara rods provided by Pat for those who do not have one. The price for the 2-day clinic is \$800 plus tip divided between the number of participants with the maximum being six-anglers. I recommend spending a couple of days either before or after the clinic to fish the local streams, rivers and/or lakes.

For members requiring accommodations Bishop or Mammoth Lakes have plenty of motels at reasonable rates, though I recommend that reservations be obtained early to secure a room.

**I will need to have those interested in this outing contact me at [klb1048@gmail.com](mailto:klb1048@gmail.com) or by cell phone at 805-440-4200.** As soon as I have commitments of at least two, I can finalize the dates depending on the wishes of the participants.

I look forward to hearing from you, and quoting the venerable Chinese philosopher, Confucius, “Life (fly-fishing) is real simple, but we insist on making it complicated.”

Ken Baldwin

# Western Sierra Trout Update

By Gary Brennan

DATES THIS YEAR: **OCTOBER 18 TO 21.**

Greetings! Other members and I are now planning our third annual trip to fish rivers and streams in the Western Sierras. Our dates are set. Our destination is not. After reading this if any interested member has input on destination choices please reach out to me at [garybtd@aol.com](mailto:garybtd@aol.com).

During 2022, seven of us traveled to Mono Hot Springs to fish the San Joaquin River, Florence Lake, Mono Creek and Edison Lake areas. Drought conditions prevailed and fishing was lousy, even while being “guided”. Club camaraderie was great and all agreed on another Fall trip which was intended to be to the south fork of the Kings River in the Cedar Grove area. Then winter set in and the access to Cedar Grove became impossible. So the plan for 2023 shifted to the middle fork of the Stanislaus River north east of Sonora. Again seven club members made this trip. Four of us camped at the Brightman Flat campground and others bunked comfortably in cabins in Long Barn. “Unguided” DIY fishing was pretty, pretty good, matched again with fine camaraderie.

These trips are planned to put us on good stream and river fishing, (sometimes requiring some hiking and rock hopping), close enough to the Central Coast for relatively easy travel, in locations with decent camp or lodging opportunities and over a long weekend to accommodate working folks. Our club is fortunate to have several anglers experienced in these waters who’s advice and participation is as good as any guide’s ( cheaper too! ).

That said, we’re looking this year at these options: Return to the middle fork of the Stanislaus; second attempt at the south fork of the Kings ( Cedar Grove ); new option on the west and east forks of the Carson River in the Markleeville area of Alpine County.

Planning will continue with the goal to have our destination set and plans in place by the Sept 12 club meeting. So, mark you calendars and please be in touch with your input or preferences for 2024 Western Sierra trout fishing with SLFF.

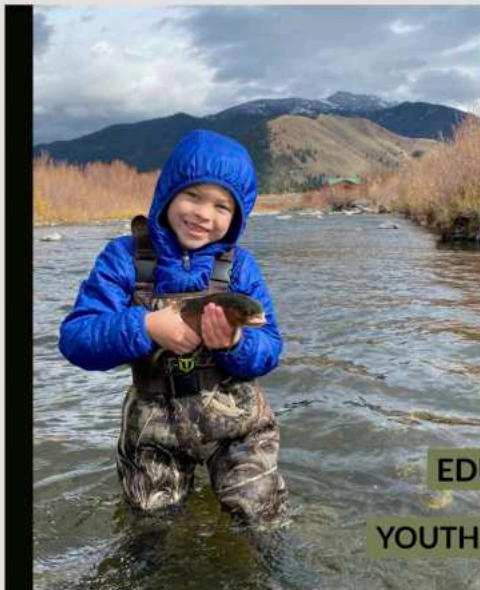

## FLY FISHERS INTERNATIONAL

Fly Fishers International (FFI) is dedicated, through education and conservation, to preserving the fly fishing experience. Conservation of our public waters and connected upland's is essential to our enjoyment, understanding and appreciation of fishes and their habitats and also the health of natural systems.
