President's Message

Remembering Sheri Bryant

Donating Flies to the Club

Western Sierra Outing Report

Bishop Trout Rodeo

Lake Almanor Outing Report

The Santa Lucia Fly Fishers fly fishing club was established in 1975 to give local area fly fishers of San Luis Obispo, Paso Robles, Santa Maria, and northern Santa Barbara, CA, of all skill levels participation in a club to learn, share, and experience the challenges of our sport in saltwater surf, and freshwater rivers and lakes.

President's Message

By Eric Tinglof

Per our bylaws, the December meeting will be our “annual” meeting, where we elect officers, announce the members who will be our Board of Directors, and go over the financials of our club. If you are interested in becoming a director or to serve on a committee, please contact me soon at etinglof19@gmail.com

The December meeting is also our member slide show night. I know you have accumulated many pictures of you and other club members in the field this year. Please share your memories with our group in person. The cut off for submission of pictures is December 5th. Simply e-mail me your photos at the address above. Maximum of four (4) pictures each and jpg file, please.

The fall brings many memories of past adventures. The irritating bugs are mostly gone. The air is fresh and usually cold. The bite switches on for an hour at a time. I was able to join several anglers on the Club’s annual Western Sierra outing. This time, we ventured into the Kings Canyon National park area to fish the South Fork of the Kings River. This was only my second time driving the road into the Park, after completing the Rae Lakes Loop backpacking trip years ago. What a road! How they completed this marvel, we are left to wonder. Three days of walking and wading while exploring small water pockets. A bonus side trip to see the General Grant sequoia tree and our trip was complete.

I am leaving today on a different backpacking trip to the Dinkey Lakes Wilderness. I have been doing a fall trip with a group of friends that I have known since we were eleven in the Boy Scouts. That’s a long time to remain close. I can’t wait to get to our base camp and melt away into nature, rod in hand.

Welcome New SLFF Members

Remembering Sheri Bryant

Longtime club member, longtime board secretary, and longtime banquet organizer Sheri passed away recently after a long battle with cancer. Our thoughts and prayers go out to our friend Ron Bryant and his family.

One thing I remember most about Sheri is she had no interest in fly fishing but loved being involved and being Secretary for the club. I appreciated all her help and support after being drafted to become club president in 2010. The fact that she was our primary interface with Madonna Inn always led to successful banquets, and with her managing the raffle ticket sales at the meetings, you knew it would be done perfectly every time. One year, we decided to try changing the venue to Cypress Ridge. After that, we returned to Madonna and have been there ever since. “If it works, don’t fix it”.

At our 2015 banquet, we recognized Sheri as our Fly Fisher of the Year. See the front page of the April 2015 newsletter in the archives for our picture.

After I retired as president Sheri stayed on as Secretary for a couple of years and helped Don Wheeler and Glynis Tinglof assume their new duties.

I’ll miss her.

Lew

SLFF Newsletter Editor - Open Position 2025

The club is looking for an enthusiastic member to become the next Newsletter Editor! The position will be for the next calendar year, 2025.

Are you interested in contributing to the club and have some (even a little) computer experience?

The Newsletter Editor is responsible for:

- Gathering club news, articles, and photos to publish each month. These are sent to the editor via email from other club members and the Board of Directors. No need to create them yourself!
- Read over the articles and edit for content and grammatical errors.
- Place articles in the newsletter template and adjust for font, text size, margins, etc.
- Send it to the Board President for final approval. The President will then publish the final newsletter via Mailchimp.

ADDITIONAL INFO:

The newsletter is already set up on a template that will be passed along to the next editor. All that's needed is a word document program (Word or Pages) and internet access.

The current newsletter editor will be available for whoever takes the position with consulting, side-by-side tutoring, etc., for as long as necessary.

Time commitment - approximately 2-3 hours per month.

Contact Eric Tinglof if you're interested. etinglof19@gmail.com

INTRODUCING YOUR SANTA LUCIA FLY FISHERS CLUB MENTORS

As a member do you have a question about our club &/or about our sport and don't know who to contact?

Below is a list of members who may be able to provide you with the answer or information you need. And generally, act as a mentor to help you learn and find the right resources. If the member you contact can't help, then they will point you in the right direction. This might be another club member, info that's on our website, website links, etc.

Mentors have been chosen because of their familiarity with the club and or have a lot of years invested in learning and experiencing our sport.

Members should understand none of our mentors knows everything but have been around long enough to know how they can help you.

Mentor info includes name, email, location (if needed) and if a subject matter expert a notation as to that expertise. Club means they are familiar with club workings if that is where you need help.

Bob Bayer rbayer319@gmail.com, Paso Robles, Club, Fly fishing topics in general, Rivers & Still Water

Bernard Pieters bpieters84@gmail.com AG, Flyfishing topics in general, Casting

Don Wheeler donaldgwheeler@gmail.com, Templeton, Club, Flyfishing topics in general, Saltwater

Jim Snodgrass lynda.and.jim@comcast.net Santa Maria, Fly Tying

WHAT ARE WE EVER GOING TO DO WITH ALL THOSE FLIES WE'VE ACCUMULATED AND WILL NEVER USE?

Here's an idea!

Last year we had a similar situation. Mark Shelton stepped up and generously offered to sort the flies into generic assortments, and we sold them in the silent auction at the banquet. We sold fifteen of these fly boxes and raised just over \$800! Mark has once again generously offered to take on this project. The club will provide the fly boxes when needed.

So, how about going through your fly accumulation and, if you're like me, donating some of those unused flies to our club?

You'll need to contact Mark at mshelton@calpoly.edu and arrange to get your flies to him at: 1423 Ashmore in SLO.

Thanks for your donation and a special thanks again to Mark!

P.S. As always, we appreciate those of you who want to tie your own flies and donate them.

Call for Members Fishing Pictures

By
Eric Tinglof

Our December “Annual” meeting at The Octagon Barn includes our traditional Member slide show on the agenda. This offers all members the opportunity to showcase up to (4) four pictures of your favorite moments fishing in 2024.

This is always a popular event, seeing where your fellow Club members spent their precious fishing moments this year. If you attend in person or via Zoom, please be prepared to tell the story behind the picture. That’s where the real interest and magic lie.

Please send your entries directly to me, in a **jpeg format** for easy incorporation into the slide show. etinglof19@gmail.com

The cut-off date to send photos is December 5.

2025 Meeting Programs

By: Lew Leichter & Mark Shelton

Mark and I are starting to plan our programs for next year. The goal continues to be in-person speakers on topics of local interest to members. Like most other things, in-person speakers have become more expensive.

As a way to offset this, Mark and I remember when we would have a meeting or two each year devoted to club member presentations. These were very popular in the past. It doesn't need to be fancy. Sharing a neat fishing experience with, hopefully, info about the destination, in addition to some photos. It also doesn't need to be long, as we can group several in an evening. Power points, slide shows, and show and tell all are welcome.

If you have any questions or want to sign up please contact Mark at mshelton@calpoly.edu or me, Lew, at lsleichter@hotmail.com

SAVE THE DATE

Trout Rodeo is returning to Bishop!

February 8, 2025

This will be the 4th time for this catch-and-release event, open to fly and conventional gear, in the Owens Valley. Depending on the weather, you could be fishing from the Upper O all the way to Lone Pine! Same rules as before, so bring your friends, club members, and anyone else who likes a fun competition. As always, the special Beverage glasses go to the winning team members and individuals in both the fly and conventional classes.

When – February 08, 2025

Where – Saturday morning - (02/08/25) – We meet at Tri-County Fairgrounds and then you are off to your favorite places to fish. The tournament runs from 9 a.m. through 4 p.m. with dinner, raffles and awards at the Fairgrounds, starting at 6 p.m.

How – You will be using the iAngler app to score your catch so you MUST have a phone that can take photos and run the App. iAngler has been used successfully for each tournament and allows you to see how you and your team are doing compared to your competitors! All fish MUST be released unharmed.

Cost – 30.00 per individual and 25.00 per team, regardless of team size.

Scoring – The largest, smallest, and total fish are scored by the inch, measured to the nearest ¼”. There is a bonus for any fish over 14”. Teams are scored by their total inches divided by the number of team players.

Full instructions will be available on the iAngler website when it goes live, on October 31st! Questions? Contact Michael Schweit (msangler@earthlink.net or 818.601.9702).

2024 Speaker Program Schedule

By Lew Leichter

We're increasing the number of in person speakers and are emphasizing programs on California fishing opportunities, most of which you can reach in a one day drive.

DATE	IP (IN PERSON) Z (ZOOM)	NAME	PROGRAM
JAN 11	Z	BRANDON WORTHINGTON	STATE OF JEFFERSON FISHING Fishing No CA & So Oregon

SLFF MONTHLY CLUB MEETING

Thursday, November 14, 2024

The Milking Parlor at the Historic Octagon Barn
4400 Octagon Way, San Luis Obispo
(And via Zoom)

Doors open @ **5:45 pm**. General Meeting @ **6:30 p.m.**

Log-in instructions will be sent ahead of the meeting, for
Zoom.

Dan has visited our club a few times over the years and was planning to come down and visit us this time, but due to a scheduling conflict, we're having to do a Zoom presentation. I haven't had the opportunity to fish the Truckee lately, but when I did, I enjoyed my time with him. Dan knows these waters, and if you're looking for a good fishing guide, please contact him.

[Tahoe Truckee River Guide - Dan LeCount's Fly Fishing Guide Service](#)

Dan LeCount Fly Fishing Guide Service

Dan LeCount is a fly fishing guide in the Truckee area with a passion for the natural world. He grew up on the California coast, spending his youth exploring the hills and streams near Half Moon Bay in the small town of LaHonda. He started fly fishing around 11 on an annual pilgrimage to the eastern Sierras with his father and brothers and hasn't stopped fly fishing since. He's a contract fly designer with Umpqua Feather Merchants, a rod builder, a published author, photographer, and artist.

He's worked in the fly fishing industry for 25 years and is active in many of the local watershed conservation programs, formerly sitting on the board of the local Trout Unlimited chapter for 10 years. He gives many presentations a year on fishing in the Truckee area along with talks on fly fishing tactics and ethics. He's a 4th generation fly fisher and came from a long line of teachers.

He will be giving his "Seasons of the Truckee" program, a season-to-season breakdown of how to fish the Truckee area, with all the major hatches, and how to find fish as the conditions change throughout the year.

Western Sierra 2024 Outing South Kings River at Cedar Grove

By Kevin Shaw

Thirty years ago, a Kings Canyon ranger taught our kids a little song about the canyon with this chorus.

“In Kings Canyon, in Kings Canyon;

Bugs don't bite, bugs don't bite;

You can catch your limit, you can catch your limit –

Hah Hab Hab, Hab Hab Hab!”

Even then, the wild trout in the South Kings River were wily and wary. We didn't “catch our limit” then. These days, the daily limit is “2 trout. 4 trout in possession,” but, just like the song says, some days you might not catch your limit.

Kings Canyon is one of the deepest canyons in North America. The scenery is spectacular and the river is full of wild trout.

We had a fun trip with great conditions, great camaraderie, and sometimes great fishing. Eight club members, spouses, and other guests fished for four days under beautiful blue skies in brisk autumn weather. Accommodations varied - Robert and Sue stayed at the Cedar Grove Lodge; Tom and Nancy stayed in their trailer; Pete and his long-time fishing buddy, Bob, stayed in Pete's camper; Gary, Don & Kevin stayed in their vehicles; and Eric and Chris were our true campers in their tents. The campground was full, but other than our group, very few were fishing. Most of us fished all day, every day, without seeing another angler.

The “Happy Fire” had been burning a few miles downstream in the canyon since July, but we had good luck with the winds and had very little smoke down on the river.

Bob Trapp,
Pete Scaroni
and
Eric Tinglof

True to its reputation, the river produced mostly small (6-8") rainbows and browns, with occasional fish in the 10-12" range. The water level is low in October and very clear, so the trout gets a good, long look at your drift and your fly. Long leaders and stealth seemed to help. Nymphs were most successful, but some had a few hungry fish take dry flies or the hopper top fly.

Though we didn't keep any fish, we did not go hungry. We ate at the lodge one night. Gary and Eric, with help from Chris and Don, organized excellent group dinners for the other nights. And there was lots of story-telling around the campfire, all of it entertaining and some of it likely true.

Gary's already thinking about plans for next year's Western Sierra outing – be sure to give him your ideas and recommendations. Maybe you know some magical place where the bugs don't bite, and you can catch your limit?

Lake Almanor Outing Report

By: Art Chapman

A small group of four fishers ventured to Lake Almanor for a week of fishing for big trout in the big lake and little ones in a couple of small lakes. We were scheduled to fish with guides Mark Antaramian and Joe Garza a day each on Lake Almanor and Eagle Lake, but Mother Nature brought high winds at Eagle Lake. Consequently, we were relegated to both days on Almanor.

Starting at about 8 am each day, we had perfect weather both on and off the water. Mornings were in the high 30s but warmed to the low 80s by late morning. Of course, we had to dress like Eskimos in the morning as Mark cranked the boat up to 40 mph as we rushed to our first fishing spot. Lake Almanor is large, encompassing nearly 44 square miles. Having an intimate knowledge of fish habits and lake structure is critical to fishing success there. Mark is an expert in knowing the places and techniques for catching big trout.

The lake's brown trout spawn in the fall. Mark located a school of them and we spent our first day suspending balanced pond smelt flies and chironomids in 30-40 feet of water. Catching was intermittent. Mark's sophisticated fish-finding gear allows him not only to see schools of fish but to identify individual fish, even our flies, and can tell when one decides to check out the fly.

I learned firsthand the brown trout grow large. How large? Check out the accompanying photo(s). Lew and I caught 10 or more hefty browns and rainbows giving us a satisfying day on the water.

On day two, Roger Grizzle and I fished with Mark at a different location over one of the many springs emitting cold water into Lake Almanor. On Mark's fish finder, we could see the fish swimming around the springs. Mark decided to change tactics and we tried retrieving streamers along with hanging pond melt beneath an indicator.

We had great day catching a variety of rainbow and hybrid cutthroat in good numbers and sizes, some of the most beautiful fish I have ever had the privilege to bring to a net.

2024 SLFF Club Fishing Outings

Comments: Dates and locations (TBD) for surf fishing will be determined by time, tides, and weather conditions. Notifications will be sent out by e-blast.

The dates regarding the specific locations will be determined by the response of members wishing to participate in the outings. We will update you by email and notices in the club newsletter.

**O'Neill Forebay Stripper Trip – November 24-25, December 1/2 or 8/9,
tentative (high winds postpones)**

Leader: Mark Shelton (459-7863; mshelton@calpoly.edu)

What: Fishing for mostly schoolies, some larger striped bass, with the occasional largemouth or smallmouth bass thrown in. The O'Neill Lake record stripper is 59 lbs., so you never know!

How: Float tubes, pontoon boats, kayaks, wading, power boats all work. Stripping streamers like clousers, Lee Haskin's San Luis Smelt, zonkers, deceivers, and flashtail whistlers on I-lines or sink-tip/full-sink lines work best. Topwater action can occasionally be good in low light (poppers, gurglers, etc.). Rod/line size 6-8 is best, but lighter and heavier gear works. Stripers aren't leader shy, so 6 or so feet of 12-15 lb. mono leader is good. I use fluoro, but doubt it matters. The forebay ranger station opens at sunrise, usually about 6:30 a.m. in fall. Wind can be bad, so I'll watch the wind info line and keep in touch with interested folks. There are flats on the west and south end of O'Neill that are easily waded and can hold quite a few stripers. The nearby big lake (San Luis Reservoir) is good for power boats and is another option.

Where: Just west of I-5 by Santa Nella, 3 hours north of SLO.

Lodging: Some folks like to camp at the lake (Medeiros area is popular); most stay in Motel 6 very near the forebay (I've found it surprisingly clean in previous stays). Motel 6 Santa Nella/Los Banos: 28821 Gonzaga Rd., 3 miles west of I-5. Ph. (209) 827-8700.

When: I'll head up Sunday and fish that afternoon and Monday, returning home that eve.

Sunday Dinner: Our club tradition is to meet for dinner the first night at the **Woolgrower's Restaurant** in Los Banos – **6:00 p.m.** This is a family style, Basque joint that is a unique and fun place. It's almost worth the trip to eat here.

O'Neill forebay schoolie stripers

Woolgrower's Restaurant regulars

First Call

Soaring Eagle/San Juan River Outing

JULY 2025

If you like great fishing with knowledgeable guides; if you enjoy tasty food and comfortable accommodations; and if you like to catch big fish....the Soaring Eagle Lodge on the San Juan River in New Mexico is the place for you.

Jim Snodgrass will be leading an outing of Santa Lucia Fly Fisher members and guests, to the Soaring Eagle Lodge from **July 7 to July 12, 2025**.

The trip is four days of fishing with accomplished guides and five nights of food and lodging. This is the first call for sign ups on this trip and a deposit is not due until January 2025, but anyone interested in fishing the San Juan River should speak up and reserve one of the seven available cabins.

The total cost per person is approximately \$3,450 divided between;

Food and lodging	\$1,500
Transportation costs	650
Guides, guide tips & fishing license	1,300

Call **Jim Snodgrass (805-235-3738)** or **email him (Lynda.and.jim@comcast.net)** to place your name on the list for the 2025 Soaring Eagle/San Juan River outing.

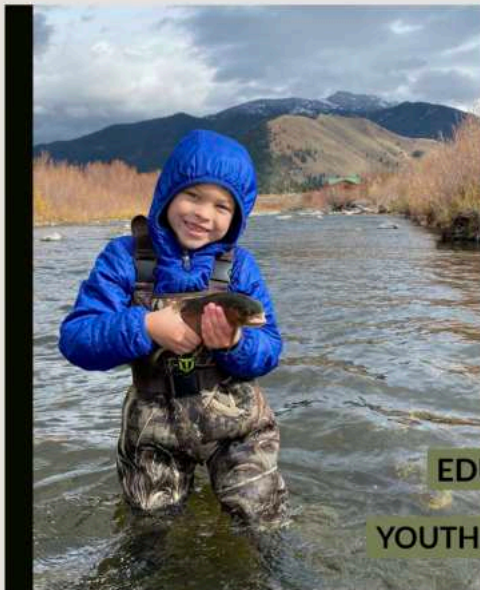

FLY FISHERS INTERNATIONAL

Fly Fishers International (FFI) is dedicated, through education and conservation, to preserving the fly fishing experience. Conservation of our public waters and connected upland's is essential to our enjoyment, understanding and appreciation of fishes and their habitats and also the health of natural systems.

"When you teach a person to fly fish you have just created a conservationist"
